### Profile

International graduate with an AEC in Information Technology Programmer-Analyst, seeking an entry-level programmer position to apply technical skills in a professional setting. Developed a solid foundation in logic, algorithms, and software design principles through hands-on experience with projects such as building a profile web application using React and Express or creating functions and triggers using TypeScript to be implemented in a mobile application by Firebase. Eager to contribute to real-world projects and continue growing in the field.

### Skills
